

# BHARAT SONI

Software Engineer | Frontend Web Developer | Reacts Js Developer

Rajasthan, India | +91 8949393710 | bharat100ni1998@gmail.com | [LinkedIn- Bharat9](#)

## PROFESSIONAL EXPERIENCE

---

### WIPRO TECHNOLOGY

Developer

Pune, Maharashtra

March-2022 – Present

- Developed and maintained frontend components for project using React.js, ensuring user-friendly interfaces and responsive design.
- Collaborating with a team developer including backend developers and UX/UI designers following agile methodologies to make application best to use.
- Involved in client/scrum/sprint planning meetings.
- Responsible for debugging and defect fixing raised by QA.
- Collaborated with cross-functional teams and optimized performance for improved user experience.
- Java Development: Developed scalable enterprise applications using Spring Boot and Microservices
- architecture, leading a SOAP Spring Boot project that extended system functionality for a U.S. banking client.

### Project

#### E-Commerce WebApp

- I developed an e-commerce application using Spring Boot as the backend framework, along with HTML, CSS, and JavaScript for the frontend.
- The project includes features like user registration, product browsing, shopping cart management, and order placement.
- Spring Boot's powerful capabilities were leveraged to implement RESTful APIs, ensuring smooth interaction between the server and client.
- The HTML structure provides a clean and user-friendly interface, styled with CSS for an appealing design, while JavaScript enhances interactivity, such as dynamic updates to the cart and responsive navigation.
- This project demonstrates my ability to build a full-stack web application with a focus on functionality, performance, and user experience.

#### Netflix Clone

- Built Netflix clone using React, JavaScript, and APIs featuring advanced search, language localization, dynamic content, caching, and simulated live chat with nested comments for an interactive user experience.

## EDUCATION

---

### Career Point University

Bachelor of Technology (Computer Science) -8 CGPA Aug, 2017 - June, 2021

Alania, Rajasthan

## ADDITIONAL

---

**LANGUAGES:** English and Hindi.

### **TECHNICAL SKILLS:**

PROGRAMMING LANGUAGES -Java and JavaScript

FRONT-END - HTML, CSS3, ReactJS, Bootstrap

BACK-END -Spring Boot, RESTful APIs.

DATABASE - MySQL

METHODOLOGIES - Agile
